

Joe and Diane Halterman

We first got interested in this car in 1966 because we needed a new reliable car because Joe was going on active duty in the Navy and I needed reliable transportation.

We bought it new off of a car lot in Grand Island, Nebraska. I sold my 1959 Thunderbird convertible to buy the red 1966 Ford Mustang. It was a new car when we purchased it.

Joe was born in Ft. Riley, Kansas, Diane was born in Grand Island, Nebraska.

Joe went to High School in Laurens, Iowa, Diane went to High School in Holdrege, Nebraska. Joe went to college at Wayne State College, Wayne, Nebraska and Electronics School in Omaha, Nebraska. Diane went to nurses' school in Kearney, Nebraska. Joe is and Electrical Engineer for L-3 Communications and Diane is retired from Mervyn's and nursing.

We have 3 children, which are all grown and 1 granddaughter.

Engine is the 289

The factory automatic

No drive train modifications

No modification to the suspension(still has Sears shocks that I put on in 1975.

No modifications inside or out, except it has been repainted a couple times.

Just installed a dual exhaust system last summer.

We paid \$2000 for it new.

Not much except for a couple paint jobs and rebuilding the brakes.
