

1929 FORD ROADSTER IMACULATE MODEL-A SHAY

Less than 11K miles on vehicle, which can cruise freeway speeds all day with its modern 4 cylinder OHV motor and 4 speed transmission. It has disk brakes on front with drum on back. It contains a 12 volt electrical system. Fun car to drive and has won trophy's at car shows.

This vehicle can be driven as a Model A or converted to a hot rod by changing the wheels as shown in picture. I call this a two for one vehicle.

This vehicle is located in Frisco, Texas. **Asking price is \$14,250.** Contact **Lee Myrben at 972-712-4261.**
